The LA Chapter of AITP brings you

Securing the Enterprise – Best Practices, New Models
Cybersecurity Experts share examples of data breaches and present effective Strategies for Prevention

_____

Thursday, June 22, 2017

Networking @ 6:00 pm   Dinner/ Program @ 7:00 to 9:00 pm

- **Anson Fong,** Chief Information Security Officer, LA World Airports (LAWA)
- **Erik Laykin,** Managing Director, Duff and Phelps LLC
- **Stan Stahl,** Founder, Citadel Information Group and Secure The Village
- **Mike Villegas, moderator,** Vice President, K3DES LLC

Join us for a great session with distinguished security executives who will discuss the key elements of **enterprise security strategy**, including info security frameworks, security operations, security awareness, business continuity, and data preservation for forensics.

They will discuss emerging standards and how best to leverage resources to comply with standards.

These seasoned technology executives will cover:

- **Steps to take in event of a breach** (and how to prevent the CISO from becoming collateral damage)
- **Tales of cyber-crime, data breaches, corporate espionage**
- **Effective Info Security frameworks as foundation for strategy,** referencing industry and regulatory standards
- **Security requirements for hiring third party vendors** – standards to keep data secure
- **Importance of Security Awareness training**
- **Business Continuity –** the role of info security in keeping business applications available 24x7.

Each panelist will present dimensions of security they are passionate about – with clear implications for protecting your own enterprise data. They will be sharing **a vision of the future that is unfolding right now!**

An **interactive Q&A session will follow**. Be prepared with questions for our distinguished panelists.

RESERVATIONS: Reservations are required. Use this link:

PRICE: Dinner & Program: Dinner & Program: Members - $28 in Advance, $35 at the Door. Non-members - $35 in Advance, $45 at the Door. For more information, call the chapter telephone at 562-928-5353 or contact Roger Lux at 562-964-1888.

LOCATION: Courtyard by Marriott – LA Westside, 6333 Bristol Parkway, Culver City 90230   310-484-7000.   Self Parking at hotel ($6)

DIRECTIONS:
Going South on 405
Take 90 fwy East
Slight right at West Slauson Ave
First right onto Bristol Parkway

Going North on 405
Take exit 49B to merge onto Sepulveda toward Slauson Ave
Right at Green Valley Circle
First right onto Bristol Parkway

ABOUT OUR PANELISTS:

Anson Fong - Chief Information Security Officer, Los Angeles World Airports

Anson Fong is the CISO for Los Angeles World Airports and has 13 years of information security experience. He is responsible for information security at LAX International Airport and Van Nuys Airport. He specializes in Cyber Security Operation, Security Auditing, Business Continuity Planning, and Computer Forensics. he has successfully implemented a state-of-the-art Cyber Security Operation Center, deployed the Airport IT COOP Plan, performed computer forensics with multiple law enforcement agencies, and provides consultation on IT security strategies and best practices. Anson has recently won the 2017 CSO50 Award with his security initiative "Business Continuity Information Security" by CSO and an IT Excellence Award in Security by InformationWeek. He holds a BS degree and CISSP certifications. He is a member of Southern California CISO Executive Summit governing body and the Cyber Security Workforce Team of the Airport Council International (ACI).

Erik Laykin - Managing Director, Duff and Phelps, LLC.

Erik Laykin, CHFI, CEDS, CFLC is an eDiscovery authority and an internationally accredited expert in computer forensics, the investigation and analysis of cyber-crime, electronic fraud, data breaches, trade secret theft, trademark, patent and systems design infringement / failure, online piracy, corporate espionage, and other complex information technology disputes.

As a pioneer in the emerging fields of corporate information technology investigations and commercial litigation based computer forensics in the early 1990's, Mr. Laykin founded OnlineSecurity, Inc., one of the world's first I.T. Investigative firms and provided highly specialized technology services for major international law firms and leading traditional investigative companies.

Today, Erik is the Founder and Co-Chair of Duff & Phelps Global Data Risk practice where he manages a variety of engagements within the eDiscovery, Forensics, CyberSecurity and Regulatory fields. As a result of his investigations and expert testimony, Mr. Laykin and his team have successfully solved/resolved disputes valued in the billions of dollars on behalf of Fortune 100 companies in the U.S and abroad.

Prior to joining Duff & Phelps, Erik was the founding chair of the Information Technology Investigations practice at Navigant Consulting, Inc. He has conducted hundreds of investigations throughout Asia, Europe and North America and has testified in over 50 cases as an expert witness.

Mr. Laykin regularly comments on technology at industry conferences and for the media including CNN, FOX, ABC, NBC, and CBS. His participation on a number of advisory boards has included the American Bar Association and the Forensic Expert Witness Association. In addition Mr. Laykin is the past President and Pacific Rim Director of the FBI's Infragard Program.

Miguel (Mike) O. Villegas - Vice President for K3DES LLC.

Mike performs and QA's PCI-DSS and PA-DSS assessments for K3DES clients. He also manages the K3DES ISO/IEC 27000 program. Mike was previously Director of Information Security at Newegg, Inc. for five years. He is currently a contributing author of Searchsecurity.com from TechTarget with over 110 articles in print.

Mike has over 30 years of Information Systems security and IT audit experience. Mike was previously Vice President & Technology Risk Manager for Wells Fargo Services responsible for IT Regulatory Compliance and was previously a partner at Arthur Andersen and Ernst & Young for their information systems security and IS audit groups over a span of nine years. Mike is a CISA, CISSP, GSEC, CSX-F, PCI QSA, and PA-QSA.

Mike was president of the LA ISACA Chapter during 2010-2012 and president of the SF ISACA Chapter during 2005-2006. He was the SF Fall Conference Co-Chair from 2002–2007 and served for two years as Vice President on the Board of Directors for ISACA International. Mike has taught CISA review courses for over 20 years.

Dr. Stan Stahl – Co-founder, Citadel Information Group and Founder, Secure the Village

Dr. Stahl is a pioneer in the field of information security, having entered the field in 1980. Earlier in his career he secured teleconferencing at the White House, databases inside Cheyenne Mountain and the communications network controlling our nuclear weapons arsenal.

Dr. Stahl excels at helping his clients develop and implement information security management strategies consistent with their security responsibilities, their business realities and their cultural circumstances.

Dr. Stahl is also founder and President of *Secure The Village*, a non-profit whose mission is to develop and integrate information security learning communities. He is Past-President of the LA Chapter of the Information Systems Security Association and the architect of the Chapter's *It Takes the Village to Secure the Village* ^{SM} Community Outreach Program.

During the Reagan administration, Dr. Stahl was invited to serve on a *White House Presidential Task Force* to recommend government strategies to better secure private-sector computer and communications systems. He was also invited to serve on a *National Information Security Study Group*, a joint program of the NSA and the Department of Commerce.

Dr. Stahl serves on the Board of Directors of the *Content Delivery & Security Association;* Governor Brown's *California Cybersecurity Task* Force and the Board of Advisors of *CyberCalifornia.* He serves on the *Industry Advisory Board* of the *Information Technology Program* at the *Viterbi School of Engineering at USC* and the *Advisory Board* of *UCLA Extension's Emergency Management & Homeland Security* and *Enterprise Risk Management Programs*.

Dr. Stahl speaks extensively about information security, both at conferences and at professional or civic associations. Together with David Lam, he co-authored the cyber security management section of the *ASIS Protection of Assets Manual*. He edits the firm's weekly newsletter — the *Cyber Security News of the Week* and the *Weekend Vulnerability and Patch Report* — which is emailed to nearly 20,000 people every week.

Dr. Stahl earned his Ph.D. in mathematics from The University of Michigan and spent nearly 15 years teaching university mathematics while doing fundamental research in the mathematics of computing.

MARK YOUR CALENDAR FOR AITP-LA COMING EVENTS:

July 13   **Leveraging LinkedIn for Marketing - Building Your Brand** – to be held at WeWork in PlayaVista. Discussion of how to use LinkedIn to effectively build your personal or corporate brand and grow your business.

September 28th -- **Peter Coffee Annual Forecast –** a tech visionary sharing latest innovations across the marketplace: Technology trends for Data Analytics, Social Media, Mobile Communications, Cloud Computing

October 13-14 **– Southland Technology Conference** – at Long Beach Hilton. Five tracks, keynotes, CPUs. Go to: http://www.sotecconference.com

November 16 **– CTOs on Technology Trends.** Joint meeting with So Cal Tech Council and the CTO Forum
