4.   Register for the August 28th event.

About our Speakers:

Emad Hasan from Retina (https://www.linkedin.com/in/emadhasan/)

Emad possesses an extensive knowledge of entrepreneurship, data science, artificial intelligence, social media, and marketing. First and foremost, he is a technologist who likes solving people problems using data science, machine learning and software algorithms.

He aligns with companies and causes that empower people, democratizes technology, and makes the world more of a meritocracy. In addition to his work at Retina.AI, he is a blogger, speaker, startup advisor, and an outdoor adventurist.

You can follow his blog here: http://ehasan.com

Neal Fultz from NJNM Consulting (https://www.linkedin.com/in/nfultz/)

Neal is a statistical scientist at NJNM Consulting..

Arrive early for great networking.
